

Prasad Gawade

Data Analyst — Power BI Developer — SQL Developer

+91 9921793792 — prasadgawade2004@gmail.com — LinkedIn — GitHub — Portfolio —
Pune, Maharashtra

Professional Summary

Results-driven aspiring Data Analyst with hands-on internship experience in SQL, Excel, Power BI, Tableau, and Python. Skilled in data cleaning, exploratory data analysis (EDA), dashboard development, and data visualization. Experienced in transforming raw datasets into actionable business insights through analytical problem-solving and reporting. Passionate about leveraging data-driven decision-making and continuously enhancing analytical capabilities.

Technical Skills

- **Programming Languages:** Python, SQL
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn
- **Visualization Tools:** Power BI, Tableau, MS Excel
- **Tools:** Jupyter Notebook, MySQL Workbench, Git, GitHub, VS Code
- **Concepts:** Data Cleaning, EDA, KPI Reporting, Dashboard Development, Data Quality Management, Team Collaboration

Internship Experience

Data Analyst Intern
Cyber Success

Sep 2025 – Mar 2026

- Cleaned and processed 10,000+ records using SQL and Excel, improving data accuracy and consistency.
- Developed 5+ interactive dashboards in Power BI and Tableau for KPI tracking and business reporting.
- Wrote optimized SQL queries for efficient extraction, filtering, and analysis of large datasets.
- Performed exploratory data analysis (EDA) to identify trends, patterns, and actionable insights.
- Automated reporting workflows, reducing manual effort by 30%.
- Generated analytical reports supporting data-driven business decisions.
- Collaborated with cross-functional teams to deliver accurate visualizations and reports.

Projects

1. IPL 2023 Data Analysis (Python) [Link]

- Analyzed IPL dataset containing 500+ matches using Python, Pandas, and Seaborn.
- Performed ETL processes and EDA to uncover meaningful insights.
- Built visual dashboards to analyze team and player performance.
- Identified venue-based trends and match outcome patterns.

2. Road Accident Analysis Dashboard (Power BI) [Link]

- Developed an interactive dashboard using Power BI, Power Query, and DAX.
- Analyzed accident trends, causes, and regional patterns from 2014–2016 data.
- Delivered actionable insights through dynamic visual reporting.

3. Blinkit Data Analysis (Excel) [Link]

- Created Pivot Tables, KPIs, and charts for sales performance analysis.
- Identified customer behavior trends and delivery bottlenecks.

4. **PhonePe Dashboard Analysis (Tableau)** [\[Link\]](#)

- Developed an interactive Tableau dashboard for digital payment analytics.
- Analyzed transaction volume, user growth, and regional performance.

5. **Intelligent Robotic Vacuum Cleaner (Academic Project)**

- Developed an intelligent robotic vacuum cleaner capable of autonomous cleaning and remote-controlled operation.
- Integrated sensors and automation logic for obstacle detection, navigation, and autonomous movement.
- Implemented real-time monitoring and map visualization for robot tracking and route management.
- Applied embedded systems, automation control, and hardware-software integration concepts.
- Enhanced problem-solving, troubleshooting, and system design skills through end-to-end project development.
- Copyright successfully published for the project and a conference paper was selected based on the research work.

Education

B.E. Electronics and Telecommunication Engineering	2022 – 2026
JSPM's Bhivarabai Sawant Institute of Technology and Research, Pune	CGPA: 8.20
HSC (Science)	2021 – 2022
Parents Association English School and Junior College, Satara	60.17%
SSC	2019 – 2020
Bharat High School, Jeur	80.60%

Certifications

- Python for Data Science – NPTEL (Jan 2025)
- Cloud Computing – NPTEL (Nov 2025)
- Data Science for Engineers – NPTEL (Apr 2026)
- GenAI Powered Data Analytics Job Simulation – TATA ,Forage (Sep 2025)
